SYLLABUS IN EXPERIMENTAL PHYSIOLOGY.

Pass Course.

The induction coil ; single shocks, short circuiting key ; effect of single shocks on the tongue ; break-shock is stronger than the make-shock. Helmholtz's Modification ; Neef's Hammer.

Pithing a frog ; nerve-muscle preparation. Mechanical, chemical, thermal and electrical stimulation of muscle and nerve.

The graphic method : simple lever ; crank lever (myograph) ; moist chamber, minimal and maximal excitation with single induction shocks (make and break). Stimulation by constant current ; contraction of muscle only at make and break.

The muscle curve :—Single contraction of a frog's muscle ; the latent period, the period of contraction and the period of relaxation. Time-tracing by tuning-fork. Method of after-loading. The influence of temperature and of load on muscular contraction. The work performed by a muscle during a twitch.

Elasticity and extensibility of muscle.

Summation of muscular contraction ; tetanus.

Fatigue of muscle.

Thickening of a muscle on contraction.

Bernard's curare experiment.

Stimulation of a motor nerve ; unequal excitability (greater nearer the centre of a motor nerve) ; excitability of flexor and extensor nerves.

Velocity of nerve-impulse (myographic method).

Electro-Physiology :—Galvani's experiment of contraction with metals ; Galvani's experiment of contraction without metals.

The Frog's heart :—Beating of the heart ; effect of heat and cold (heart in situ) ; section of the heart ; effect of heat and cold on excised heart.

Stannius' experiment.

Graphic record of the beat of the heart (suspension method and also direct registration with heart-lever).

Pulse-Sphygmographic tracing.

Blood-pressure in man ; Sphygmometer and Sphygmomanometer.

Reflex action (simple experiments on a pithed frog).

Vision :—Accommodation ; Scheiner's experiment ; near and far point.

Purkinje-Sanson's images : Phakoscope ; Blind spot ; Yellow spot ; Colour vision ; Complementary colours.

Honours Course.

Additional Experiments—

The induction coil—Break extra-current of Faraday.

The Rheonome ; Effect of sudden variation of current.

Isotonic and Isometric contraction.

Influence of veratrine on muscular contraction.

Indefatigability of nerve.

Excitation of muscle by constant current ; Polar excitation of a Muscle.

Electrotonus. Electrotonic changes in excitability and conductivity of a nerve.

Kuhne's experiment of contraction without metals.

Examination of currents in muscle, nerve and heart by means of the reflecting galvanometer.

Frog's heart—Minimal stimulus causes maximal contraction.

“Staircase effect.” Single contraction of the ventricle.

Tetanisation. Refractory period, Stimulation of the vagus.
Action of drugs (Muscarine digitalin, Pilocarpin and Atropin) on the heart.

Voice and Speech ; Laryngoscope.

Vision : Ophthalmoscope ; Perimeter.

ZOOLOGY.

(To be notified hereafter.)

GEOLOGY.

No text-books are prescribed or recommended. The subject is to be studied with the help of the Syllabus prescribed in the Regulations.

EXPERIMENTAL PSYCHOLOGY.

The subject is to be studied as defined by the Syllabus. Students are recommended to use one or more of the following books :—

Pass Course.

I.—General Psychology—

| | | | |
|-----------|-----|-----|--------------------------------------|
| Yerkes | ... | ... | Introduction of Psychology. |
| Wundt | ... | ... | Human and Animal Psychology. |
| Titchener | ... | ... | Text-book of Psychology. |
| Leckley | ... | ... | The Nervous System (Longmans & Co.). |

Preparatory Reading—Students are advised to read Titchener's Primer of Psychology before joining the regular class.

II.—Experimental Psychology—

| | | | |
|---------|-----|-----|--|
| Sanford | ... | ... | Course in Experimental Psychology. |
| Myers | ... | ... | Text-book of Experimental Psychology. Part I—Text-book. |

Preparatory Reading—Students are advised to read Myers's Primer of Experimental Psychology before joining the regular class.

Laboratory Course—Titchener's Experimental Psychology, Vol. I, Part I, and Vol. II, Part I (Student's Manual, Qualitative and Quantitative).

Myers—Text-book of Experimental Psychology—Part II (Laboratory Course).

Honours Course.

I.—General Psychology—Same as in the Pass Course with the addition of Kulpe's Outlines of Psychology.

II.—Physiological and Comparative Psychology.

| | | | |
|--------------------|-----|-----|---|
| Wundt | ... | ... | Principles of Physiological Psychology. Vol. I, Part I. (The Bodily Substrate of Mental Life.) |
| Ladd | ... | ... | Elements of Physiological Psychology. |
| Thorndike | ... | ... | Animal Intelligence. |
| Lloyd Morgan | ... | ... | Comparative Psychology. |
| M. Greenwood (Jr.) | ... | ... | Physiology of the Senses. |

III.—Experimental Psychology—

In addition to the books recommended for the Pass Course, the following :—

| | | | |
|-----------|-----|-----|--|
| Scripture | ... | ... | New Psychology. |
| Titchener | ... | ... | Lectures on the Psychology of the thought processes. |
| Titchener | ... | .. | Instructor's Manual—Quantitative (Introduction). |

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Spring Oilseed Crops of Bengal, 1917-18.

(Note:—On the average of the five years ending 1915-16 the area under linseed in Bengal represents some 5·6 per cent. and that under rape and mustard 20·4 per cent. of the total area under these crops in British India.)

Explanatory.—Three forecasts are issued for the spring oilseed crops. The present forecast deals only with the area sown and the general condition of the crops.

Area sown.—Oilseeds are grown principally in the Rajshahi, Dacca and Presidency Divisions. The total area under these crops (excepting sesamum for which separate forecasts are published) is returned at 1,328,200 acres, as against 1,405,300 acres reported in the corresponding forecast of last year, or a decrease of 77,100 acres. The decrease is attributed to excessive rainfall and flood at sowing time.

Character of the season.—The rainfall in September, though defective, was sufficient for the preparatory tillage. In the early part of October heavy showers generally interfered with the sowings of the crops. Consequently sowings were late in most districts. The rainfall in the last week of October caused some damage to the crops on the area already sown. Since then dry weather prevailed and the prospects of crops have improved to some extent. The present condition is generally reported as fair.

CALCUTTA,
The 15th December 1917.

for Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Winter Rice Crop of Bengal, 1917-18.

(Note.—On the average of the 5 years ending 1915-16, the area under winter rice represents some 19·5 per cent. of the total area in British India.)

Character of the season.—As already reported in the preliminary forecast, transplanting operations were greatly hampered owing to the insufficiency of rainfall in August and the first half of September. Subsequently, however, the weather has been favourable, although in the end of October excessive rain accompanied by high wind did some injury to the crop. In the Burdwan Division the floods of the Adjai and Damodar rivers affected a wide area, but, fortunately, the damage was not very serious. After allowing for all adverse conditions the season may be regarded as a good one.

Acreage.—According to the figures reported by the District Officers the area sown this year is 15,546,300 acres against 15,668,400 and 15,667,400 acres shown in the second and final forecasts of last year. The reasons for the decrease have already been explained in the preliminary forecast.

Outturn.—From the appendix attached to the report it will be seen that four districts, viz., 24-Parganas, Birbhum, Bankura and Dacca, have returned more than a normal crop. Eleven districts have returned a normal crop, eight districts a crop between 80 to 95 per cent. The remaining four districts show a lower outturn, but in no case below 75 per cent. of the normal.

According to the estimates furnished by District Officers the provincial outturn works out to 98 per cent. of the normal, against 94 per cent. estimated, both in the second and final forecasts of last year.

Taking 12 maunds as the normal yield of clean grain per acre, the gross outturn for the province is estimated at 134,320,000 cwts. against 129,849,500 and 129,841,200 cwts. reported in the corresponding and final forecasts of last year.

Second forecast of Winter Rice Crop of 1917-18.

| DISTRICT. | Estimated normal area under winter rice. | ESTIMATED AREA UNDER WINTER RICE. | | ESTIMATED OUTTURN AS A PERCENTAGE OF THE NORMAL YIELD PER UNIT OF AREA. | | Date by which the harvesting generally commenced this year, and whether that date was early, normal or late. | REMARKS BY DISTRICT OFFICERS. |

| | | Last year (1916-17). | This year (1917-18). | Last year. | This year. | | |
| | Acres. | Acres. | Acres. | | | | |
| 24-Parganas ... | 899,700 | 829,700 | 880,400 | 92 | 117 | Middle of November; normal. | The increase in area as compared with that of the preliminary forecast is due to the fact that some lands were sown with paddy in the Sadar, Barrackpore and Basirhat Subdivisions after the submission of that forecast. The weather has been favourable on the whole. Slight damage has been done to the crop in Diamond Harbour Subdivision by excessive rainfall during October. Outturn in excess of the normal is due to timely rainfall. |
| Nadia ... | 136,600 | 117,400 | 123,900 | 83 | 75 | Not yet begun ... | The weather has been favourable for the growth of the crop. Some damage has been done to the crop by flood and heavy rain in October. |
| Murshidabad .. | 345,600 | 306,600 | 312,100 | 83 | 92 | Not yet commenced ... | The weather was favourable, but rains and storm in the last week of October are likely to cause damage to the crop to the extent of about 2 to 3 annas. Hence the outturn is expected to fall below the normal. |
| | 568,100 | 455,600 | 479,300 | 92 | 100 | November; normal ... | The decrease of area as compared with that of the preliminary forecast is due to revision of estimate made by the Subdivisional Officer, Jhenidah. The weather has been favourable for the growth of the crop. Slight damage has been done to the crop by flood. The outturn is anticipated to be normal. |
| Khulna ... | 748,300 | 748,300 | 750,000 | 85 | 100 | Beginning of November; normal. | The increase in area is due to timely rainfall. The outturn is expected to be good. |
| Burdwan ... | 874,800 | 580,000 | 710,000 | 83 | 100 | End of November. | Heavy rainfall at the end of October was to a certain extent injurious to the crop. The floods of Damodar and Adjal caused damage to the crop to the extent of 2 annas in the flooded areas. |
| Birbhum ... | 604,600 | 595,000 | 601,500 | 100 | 117 | Not yet commenced ... | The weather has been favourable. |
| Bankura ... | 510,600 | 510,600 | 520,000 | 133 | 150 | Not yet begun ... | The weather has been favourable. Making allowance for the slight damage done by Bhepu pest, the outturn is expected to be above the normal owing to weather being very favourable throughout. |
| Medinipur ... | 1,579,400 | 1,640,000 | 1,637,000 | 94 | 100 | Ditto ... | The weather was not quite favourable owing to heavy rain. The outturn, however, is expected to be normal. |
| Hoochly ... | 276,700 | 200,900 | 198,000 | 66 | 89 | Ditto ... | The outturn is expected to fall below the normal owing to heavy floods in the Arambagh Subdivision. |
| Howrah ... | 126,200 | 112,000 | 119,800 | 75 | 80 | Middle of November; normal. | The weather has been favourable, but a large area was affected by the Damodar floods. Nearly 10 annas crop within the jurisdiction of Singt and Amba thanas and 2 annas within the jurisdiction of Mandahat police-station have been damaged by floods. The crop in the Bagman police-station has also been damaged slightly. The outturn is expected to be normal in the Sadar Subdivision but below the normal in Clubaria Subdivision owing to floods. |
| Rajshahi ... | 697,000 | 668,300 | 660,400 | 80 | 80 | Not yet commenced ... | The weather has been favourable, but heavy rainfall in October caused some damage in the Narayan Subdivision. Hence the outturn is expected to fall below the normal. |

| Dinajpur | 1,120,300 | 1,058,100 | 749,800 | 100 | 79 | Not yet commenced ... | The decrease in area as compared with that of last year is due to want of adequate and timely rainfall. Insufficient rainfall in September and heavy rain in October caused the outturn to fall below the normal. |
| Jalpaiguri | 551,300 | 308,000 | 494,000 | 101 | 100 | Ideto ... | The increase in area as compared with that of the preliminary forecast is due to sufficient rain early in the season as well as to less area being sown with jute. The weather has been favourable since the submission of the first forecast. Hence the outturn is expected to be normal. |
| Darjeeling | 65,200 | 38,200 | 26,100 | 100 | 100 | November; normal ... | The decrease of 12,100 acres as compared with the estimate made in the preliminary forecast is due partly to want of rain at the time of sowing and partly to revision of estimate. |
| Rangpur | 822,300 | 800,000 | 555,000 | 100 | 75 | End of November, normal. | The decrease in area is due to insufficient rainfall at sowing time. The weather has been favourable. Heavy rain and high flood caused some damage to the crop in low lands. Hence the outturn is expected to be below the normal. |
| Bogra | 303,000 | 303,000 | 445,500 | 100 | 81 | Not yet commenced ... | Heavy rains in the latter part of October caused damage to the crop to a certain extent. The weather was favourable at sowing time, but not favourable during the period of growth. |
| Pabna | 566,000 | 500,000 | 520,300 | 86 | 100 | Harvesting commenced; normal. | The weather has been favourable on the whole, since the time of sowing. Rainfall in August and September did much good to the crop. Hence the outturn is expected to be normal. |
| Malda | 300,000 | 318,000 | 320,000 | 116 | 100 | End of November, normal. | Owing to absence of rain from the end of August to end of September, the growth of the crop was retarded a little. The weather has been favourable since the beginning of October. A normal outturn is expected. |
| Dacca | 632,100 | 623,800 | 645,000 | 85 | 104 | | The weather has been very favourable. Slight damage was caused to the crop by stormy weather in October last, otherwise the outturn would have been better. |
| Mymensingh | 1,128,700 | 969,700 | 969,700 | 92 | 98 | Not yet commenced ... | The weather has been favourable. The outturn is expected to be normal, except at Tangail. |
| Faridpur | 770,100 | 789,000 | 787,900 | 100 | 95 | Middle of November, normal. | The weather has been favourable. Some damage was caused by flood and storm in October. Hence the outturn is expected to fall below the normal. |
| Bakerganj | 1,200,000 | 1,259,000 | 1,267,000 | 90 | 100 | Not yet commenced ... | The weather was unfavourable at times. Insects also damaged the crop slightly in Sadar Subdivision. The outturn, however, is expected to be normal. |
| Chittagong | 418,400 | 426,100 | 426,100 | 109 | 103 | End of November; normal. | The weather has been favourable. The outturn is expected to be normal. |
| Tippura | 724,900 | 794,000 | 780,000 | 90 | 90 | November | The weather has been fairly good. Some damage was done by drought in Brahmanbaria Subdivision. The outturn is expected to fall below the normal for want of sufficient rain in certain areas. |
| Noakhali | 610,000 | 600,000 | 609,000 | 100 | 100 | November, normal ... | On the whole the weather was favourable and a normal outturn is expected. |
| Chittagong Tracts Hill ... | 47,500 | 41,500 | 43,000 | 45 | 75 | Not yet commenced ... | The weather has been fairly good. |
| Total Bengal | 16,622,500 | 15,867,400 | 15,546,300 | 94 | 98 | | |

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the *Bhadol* crops of Bengal, 1917-18.

(Note 1:—On an average of the five years ending 1915-16, the area under autumn rice in Bengal has represented some 8·8 per cent. of the total area under rice in British India.)

Character of the season.—The weather conditions as described in the preliminary forecast were generally favourable in Western Bengal. Damage to varying extents was, however, caused to the crops by the rise of rivers in the districts of Nadia, Murshidabad, Jessore, Burdwan, Midnapore, Hooghly and Howrah, the last named district being the worst sufferer. In Northern Bengal the rainfall was deficient in the early stages of the season, but subsequent rainfall proved favourable on the whole. In the eastern districts, although the crops suffered either from unequal distribution of rainfall, floods, or insect pests, the conditions were not altogether unfavourable. Drought in Tippera and floods in Noakhali were, however, responsible for considerable damages. A fairly good yield of *autumn* paddy and fair as regards other crops are anticipated.

Acreage.—The total area sown this year with the different crops is reported to be 5,964,300 acres as against 5,935,300 acres returned in the corresponding forecast of last year. Of this, the area under autumn rice is reported to be 5,076,100 acres against 5,048,200 acres last year.

Outturn.—From the estimates of the District Officers, the outturn of the different *bhadol* crops for the province as a whole works out at 88 per cent. of the normal against 74 per cent. reported in the corresponding forecast of last year.

Taking 88 per cent. as the outturn of autumn rice for this year, the gross outturn for the province, on the basis of a normal yield of 10 maunds of clean grain per acre, is estimated at 32,818,500 cwts. against 27,445,700 cwts. reported in the final forecast of last year.

| | Bhadol paddy (autumn rice). | 18,500 | 9,100 | 8,900 | 54 | 50 | Middle of October. Late. | The decrease in area was due to heavy rains. Practically no bhadoi crops were sown in the Ulubaria police-station and jute took their place. The outturn was much below the normal owing to heavy rains at the beginning. About ten acres of the crops were damaged by the Damodar floods in the Singti and Amta police-stations. |

Beginning of August. Normal.

The weather was not favourable. The fall in outturn is due to insufficient rain at the beginning and to damage caused by the rains subsequently.

Some damage was caused to the crops by drought and flood.

End of July ...

End of August .

August ...

End of July ...

The dates are normal.

July to August. Normal.

The weather was favourable. About two acres of paddy and Indian corn were damaged by flood. The falling off in outturn in case of jowar, bajra, Indian corn, cereals and pulses was due to excessive rainfall during the period of growth.

None the submission of the professional opinion the weather was good. The outturn is below the normal owing to scanty rain in the March-April period.

**MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR
NOVEMBER 1917.**

I. **Character of the Season.**—During the month under report light rain fell in most districts. The fall was below the normal everywhere excepting in Howrah, Mynensingh, Bakarganj, Chittagong, Noakhali and Chittagong Hill Tracts. The usual rainfall statement is appended.

II. **Progress of Agricultural Operations.**—Sowing of potatoes and other spring crops were in brisk progress. Harvesting of winter paddy commenced in the Eastern districts.

III. **State of Standing Crops.**—Despite heavy rainfall in October the condition of the standing winter paddy crop was satisfactory, but that of spring crops already sown was fair.

IV. **Prospects and Probable Outturn.**—A fairly good outturn of winter paddy is anticipated.

V. **Damage to Standing Crops.**—No report of damage was received from any district during the month.

VI. **Condition of Agricultural Stock.**—The condition of agricultural stock was reported as fair. Cattle-disease was found to be prevalent in eleven districts.

VII. **Failure of Pasturage and Fodder.**—There was no scarcity of fodder anywhere excepting in parts of the Jessore district.

VIII. **Prices of Food-grains.**—During the second fortnight of the month the prices of common rice rose in two districts only, fell in fifteen and remained stationary in the rest. It varied from 8 seers 4 chitaks per rupee at Darjeeling to 14 seers per rupee at Bankura and Malda.

IX. **Condition of Agricultural People.**—The condition of agricultural people was reported as fair.

To My People.—The world-wide struggle for the triumph of liberty is entering upon its last and most difficult phase. The enemy is striving by desperate assault and subtle intrigue to perpetuate the wrongs already committed, and to stem the tide of free civilisation. We have yet to complete the great task to which we have dedicated ourselves and I would call upon you to devote a special day, to prayer that we may have the clear-sightedness and strength necessary to the victory of our cause. This victory will be gained only if we steadfastly remember the responsibility resting upon us, and in a spirit of reverent obedience ask the blessing of Almighty God upon our endeavours. Let us seek to be enlightened in our understanding and fortified in courage in facing the sacrifices we may yet have to make. I therefore appoint January 6th, the first Sunday in the New Year, to be set aside as a special day of prayer and thanksgiving in all the churches throughout my Dominions.

| 12th „ | ... | ... | Tuesday, | 3rd December. |

3. The quantity to be sold monthly will ordinarily be notified before each sale, but Government reserve to themselves the right, at any time, without previous notice to reduce the quantity or alter the class of opium to be offered for sale.

4. The following are the conditions of sale. Government reserve to themselves the right of altering all or any of these conditions after giving three months' previous notice, and power is reserved to vary the upset price referred to in condition (ii) at any time without such previous notice :—

(i) The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

(ii) The opium will be ordinarily offered for sale at an upset price of Rs. 3,200 per chest of uncertified opium and will be sold to the highest bidder above that price, except under the circumstances for which provision is made by clause (xiii) of these conditions of sale. The bids must advance by Rs. 5 at a time.

(iii) The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of Government, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Government may dispose of the lots which remain on hand at a future sale.

(iv) Each lot shall ordinarily contain five chests.

(v) A promissory note for a sum, calculated according to the scale noted

DEPOSIT

When the amount bid is less than Rs. 3,600 per chest, Rs. 800 per chest.

On bids of Rs. 3,600 and upwards, but less than Rs. 4,000 per chest, Rs. 900 per chest.

On bids of Rs. 4,000 and upwards, but less than Rs. 4,400 per chest, Rs. 1,000 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such promissory notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as Government shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

(vi) The said promissory notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or, whether there shall be a loss on such re-sale or not.

(vii) The promissory notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

(vii) No tender of money, Bank of Bengal receipts, or public securities on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause (v) on the fifth day following the day of sale, will be afterwards accepted: Provided always that money so subsequently tendered may be taken in payment of the said promissory note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. (v) and No. (vi).

(ix) The opium advertised for sale shall be paid for not later than 3-30 P.M. of the fifteenth day after the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as Government shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

(x) Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorising the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

(xi) No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for

deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

(xii) The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a promissory note would otherwise be taken under the fifth of these conditions.

(xiii) With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bond fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 3,200 specified in the second of these conditions.

(xiv) The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of opium not exceeding altogether ten lots, provided always that there remain a sufficient number of lots of the opium to complete the said ten.

(xv) In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

5. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Government of Bengal :—

No. 1.—Certificate of the opium advertised for sale.

No. 2.—Report of the examination of such opium.

6. The public are hereby informed that in providing the investment of the opium manufactured at the Ghazipur Factory, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Ghazipur Factory, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Government of Bengal.

7. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Government of Bengal. But, in accordance with established usage, under no circumstances will the Government entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Governor in Council,

J. DONALD,
Secretary.

EDUCATION DEPARTMENT, BENGAL.**NOTIFICATION.****State Scholarship of £200 per annum tenable in the United Kingdom or, with special sanction, in foreign countries by Indian Girls or Women.**

^a[Including those who, though born or temporarily resident in Native States, are domiciled in British India, but excluding subjects of Native States and members of the European and Anglo Indian domiciled community.]

THE scholarship will be granted for medical, and occasionally for other educational or professional, courses and will be tenable in the United Kingdom or, with special sanction, in foreign countries, for a period of three years in the first instance, with a possibility of extension to five years. The scholarship will carry with it no conditions as to any subsequent career or service under Government, and no expectation of such employment is held out.

2. The scholar will be selected by the Government of India from among candidates nominated by the Local Governments. Intending candidates from Bengal are requested to make application to the Assistant Director of Public Instruction, Writers' Buildings, Calcutta, not later than 31st January 1918. The application should be accompanied by (1) evidence of having obtained a degree of an Indian University in medicine or educational or professional courses; (2) a medical certificate of fitness to undergo, abroad, the course of study proposed; (3) a certificate from some person of recognised position well acquainted with the candidate, to the effect that she is a native of Bengal or domiciled in Bengal and of purely Indian parentage; (4) full details including the name and occupation of the candidate's father and place of birth, a summary of her academical career in India, and a statement of the course of study proposed to be followed; (5) full address of the candidate.

3. The State scholar is required to proceed to England within a reasonable time from the date of her selection, so as to arrive there not later than the middle of September, and to reside there for the period of her scholarship, unless compelled to return sooner in consequence of ill health. The scholarship will be payable from the date on which the scholar reports her arrival in England. The selected candidate will be provided with a second class passage to England, and with a second class return passage if she completes the full period of residence or is compelled by sickness to return within that period.

4. Charges for University and college fees, for private tuition, for books, instruments, hotel bills, medical attendance and travelling (except the two journeys between England and India) are not defrayed by the Secretary of State.

5. For further particulars pages 1143 to 1155 of the *Calcutta Gazette*, dated the 21st June 1916, may be consulted.

Midnapore Collectorate, the 30th November 1917.

W. A. MAHA, Collector.

NOTICE is hereby given that the Government of India, by order, has decided to acquire the land situated at the junction of Showani Charan Dutt Lane and the new 42 feet wide road connecting Lakshmi Charan Dutt Lane and Pary Charan Barker Street in the district of 24-Parganas, and to put up for sale at 12 o'clock on Monday, the 22nd January 1918, corresponding with the 15th Mangi Purnima, at the Land Acquisition Collector's Office, 2 Commercial Buildings, Calcutta.

The purchasers of the several plots of land will be subject to the following conditions:-

- 1st—The purchasers will have no power to make any excavations on the land nearer than three feet from the railway boundary, or to plough the land nearer than three feet from the same.
- 2nd—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.
- 3rd—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.
- 4th—The plot of land will be sold revenue-free to the highest bidder.
- 5th—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it, and a regular conveyance will then be granted to the purchaser.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the Fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The Fund is now of ten years' standing and has a balance of over three and-a-half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries, Imperial Secretariat Buildings, Calcutta.

THE INDIAN LAW REPORTS.*Published in FOUR SERIES, viz.,***CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.**

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible, after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

GOVERNMENT OF BENGAL.

BENGAL LEGISLATIVE COUNCIL.

NOTIFICATION.

No. 1389L., dated the 20th December, 1917.—The following Bill was introduced in the Bengal Legislative Council on the 18th instant, and is hereby published for information, together with the Statement of Objects and Reasons annexed thereto:—

THE BENGAL PRIMARY EDUCATION BILL, 1917.

[NOTE:—The figures in the right-hand margin of this Bill indicate the clauses of the Bombay Primary Education (District Municipalities) Bill, 1917, as amended by the Select Committee.]

A BILL

to provide for the extension of primary education in all Municipalities in Bengal and other selected areas in Bengal.

WHEREAS it is expedient to provide for the extension of primary education in all Municipalities in Bengal and other selected areas in Bengal;

It is hereby enacted as follows:—

Short title and extent.

1. (1) This Act may be called the Bengal Primary Education Act, 1917.

(2) It extends in the first instance to all Municipalities in Bengal:

Provided that the Local Government may, by notification, extend the provisions of this Act, *mutatis mutandis*, to selected areas within the jurisdiction of District Boards which have been constituted into Union Committees under section 38 of the Bengal Local Self-Government Act of 1885, and authorize the Union Committees in such areas to exercise all the powers and duties conferred or imposed on the Commissioners by this Act, subject to such control by the District or Local Boards as the Local Government may prescribe in this behalf.

Ben. Act III
of 1885.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(1) “to attend a recognized primary school” means to be present for instruction at such school for so many and on such days in the year and at such time or times on each day of attendance as may be prescribed by the Local Government or the School Committee;

(2) “child” means a male child whose age is not less than six and not more than ten years;

(3) “the Commissioners” means the persons for the time being appointed or elected to conduct the affairs of a Municipality;

(4) “guardian” includes a parent and any person who is liable to support, or has the actual custody of, a child;

(5) “Municipality” means any place in which the Bengal Municipal Act, 1884, or any part thereof, is in force, and includes Calcutta as defined in clause (7) of section 3 of the Calcutta Municipal Act, 1899;

Ben. Act III
of 1884.

Ben. Act III
of 1899.

(6) “primary education” means such instruction in reading, writing and arithmetic and other subjects (if any), as may be prescribed from time to time for primary schools by the Local Government;

The Bengal Primary Education Bill.

(Clauses 3—8.)

(7) "recognized primary school" means a school (or a department of a school) appropriated to primary education and for the time being recognized by the Local Government as being maintained in accordance with their requirements.

(8) "School Committee" means a committee constituted under section 7.

Power of Commissioners to declare primary education compulsory.

3. (1) The Commissioners may, with the previous sanction of the Local Government, declare by notification that primary education shall be compulsory within the Municipality or any part thereof. [Cf. 3.]

(2) Every notification issued under this section shall be published in the *Calcutta Gazette* and in the local newspapers and shall be posted at the Municipal office and at such other places, if any, as the Commissioners shall deem necessary, specifying the date on and from which primary education shall be compulsory within the area mentioned in the notification.

Commissioners to make provision for primary education before issue of notification

4. No notification shall be issued under section 3 unless the Commissioners have made such provision as the Local Government consider necessary and sufficient for the primary education of all children within the area mentioned in the notification for whom such education would be compulsory on the issue of such notification. [Cf. 4.]

Resolution to be passed before issue of notification

5. No notification shall be issued under section 3 unless the Commissioners have so determined by a resolution passed at a general meeting specially called in this behalf. [Cf. 5.]

Application for sanction to issue notification.

6. Every application for sanction to issue a notification under section 3 shall be made in such manner as the Local Government may by rules in this behalf prescribe; and such certificate or particulars as may be prescribed by such rules, showing that the requirements of sections 4 and 5 have been complied with, shall be furnished with the application. [Cf. 6.]

Constitution of School Committee.

7. When a notification has been issued in any Municipality under section 3, the Commissioners shall appoint a School Committee to be constituted in such manner as they may prescribe by by-laws under section 21; and it shall be the duty of such Committee, subject to the provisions of this Act, to enforce the provisions of this Act in respect of the attendance of children at school and the employment of children: [Cf. 7.]

Provided that the Deputy Inspector or the Sub-Inspector of Schools shall be a member of every such Committee.

Duty of guardian to send child to school.

8. In every area to which this Act applies, it shall be the duty of the guardian of every child residing within that area to cause such child to attend a recognized primary school unless, in the opinion of the School Committee, there is a reasonable excuse for the non-attendance of the child. [Cf. 8.]

The Bengal Primary Education Bill.

(Clauses 9—13.)

Non-attendance
when excusable.

9. Any of the following circumstances shall be deemed to be a reasonable excuse for the non-attendance of a child at a recognized primary school:—

[Cf. 8.]

- (a) that there is no recognized primary school within a distance of one mile, measured along the nearest road, from the residence of the child, which the child can attend, and to which the parent has no objection to send the child;
- (b) that the child is prevented from attending school by reason of sickness, infirmity, domestic necessity, the seasonal needs of agriculture, or other sufficient cause;
- (c) that the child is receiving instruction in some other satisfactory manner.

Issue of attendance
order by Magistrate.

10. (1) When the School Committee is satisfied that the guardian of any child, who is bound under the provisions of section 8 to cause such child to attend a recognized primary school, has failed to do so, the School Committee, after due warning to such guardian, may apply to a Magistrate for an order to compel the guardian to enforce the attendance of such child, and the Magistrate shall fix a day for the hearing of the application and cause notice thereof to be given to the guardian.

[Cf. 9.]

(2) On the day fixed for the hearing of the application or on any subsequent day to which it may be adjourned, and after hearing the guardian or any authorized agent on his behalf, if he is present, the Magistrate, if satisfied of the truth of the facts alleged in the application, may pass an order directing the guardian to cause such child to attend a recognized primary school from a date which shall be specified in the order.

Penalty for failure
to obey attendance
order.

11. (1) Any guardian against whom an order with reference to a child has been passed by a Magistrate under section 10 and who fails without reasonable excuse to cause such child to attend a recognized primary school from the date specified in such order, shall, on conviction before a Magistrate, be liable to a fine not exceeding two rupees.

[Cf. 10.]

(2) No Magistrate shall take cognizance of an offence under this section except on the complaint of the School Committee.

Prohibition of em-
ployment of children.

12. No person shall, without the permission of the School Committee, take into his employment any child who is required to attend a recognized primary school under this Act.

[Cf. 11.]

Employer's liabi-
lity.

13. (1) The School Committee may, after due warning, prosecute any employer who contravenes the provisions of section 12.

[Cf. 11.]

(2) Unless such employer is able to satisfy the Magistrate that there is no recognized primary school within a distance of one mile, measured along the nearest road, from the residence of the child or that the time and nature of the child's employment are such that he is not prevented from receiving elementary education at school, or that the child is receiving instruction in some other satisfactory manner, or that the child

was employed under false representations as to age, residence and other conditions, or without his knowledge and consent by an agent or workman under him for whose prosecution he is willing to afford the necessary facilities, he shall, on conviction before a Magistrate, be liable to a fine not exceeding twenty rupees.

Liability of employer's agent.

14. When the act of taking a child into employment in contravention of this Act is in fact committed by an agent or workman of the employer, that agent or workman shall be liable to the same penalty, in the same manner, and subject to the same conditions as if he were the employer.

[Cf. 11.]

Delegation of certain functions by School Committee.

15. An application to a Magistrate under section 10 and a complaint to a Magistrate under section 11 or 13 may be made on behalf of the School Committee by an agent authorized by such Committee in this behalf.

[Cf. 12.]

Exemption from compulsory education.

16. The Local Government or a School Committee may exempt any class of persons or community from the operation of this Act.

[Cf. 16.]

Education cess.

17. (1) When a notification under section 3 is in force in any Municipality, the Commissioners may, with the previous sanction of the Local Government, impose a tax, to be known as an "education cess", if their existing resources or any grant from Government are not sufficient to meet the cost of such primary education.

[Cf. 13.]

(2) An education cess shall not be imposed unless the Commissioners, by a resolution passed at a general meeting, determine to impose such cess and the resolution is supported by at least two-thirds of the Commissioners present at the meeting.

(3) The proceeds of the education cess shall be devoted by the Commissioners solely to the purposes of primary education.

(4) The education cess shall be imposed and levied in the manner prescribed by rules to be made by the Local Government in this behalf on the recommendation of the Commissioners.

(5) Whenever an education cess is levied within any area, primary education shall be made free within that area.

Remission of fees.

18. When a notification under section 3 is in force in any Municipality, if the guardian of any child, who is bound under the provisions of this Act to cause such child to attend a recognized primary school maintained by the Commissioners shall declare in writing to the Head Master of any primary school that he is unable to pay the fees ordinarily charged in such school, such child shall be admitted to such school free of charge during the period for which such parent is bound under the provisions of this Act to cause such child to attend a recognized primary school:

[Cf. 14.]

Provided that—

(a) no fee shall be levied from the guardian of a child compelled to attend school, if his monthly income does not exceed twenty rupees:

The Bengal Primary Education Bill.

(Clauses 19—22.)

- (b) the Commissioners or the School Committee may remit the whole or any part of the fee payable by any guardian either on the ground of poverty or for other sufficient cause.

Schools to be open to inspection.

19. All primary schools maintained by the Commissioners in any area in a Municipality in which a notification under section 3 is in force shall be open to inspection by such officers as the Local Government may appoint in this behalf.

Withdrawal of notification on default.

20. When the Local Government are of opinion that the Commissioners have made default in any of the requirements of this Act, they may, by notification in the *Calcutta Gazette*, stating the grounds of such order, cancel any notification which has been issued under section 3.

[Cf. 16]

Power to Commissioners to make by-laws.

21. The Commissioners may, with the previous sanction of the Local Government, make by-laws prescribing—

- (a) the manner in which the School Committee shall be constituted, the number of its members, their duties and their mode of transacting business;
- (b) the steps which the School Committee may take to secure the attendance of children at school.

Functions of Local Government not to be delegated.

22. The Local Government shall not delegate its functions under this Act to any of their subordinate officers.

STATEMENT OF OBJECTS AND REASONS.

THE object of the Bill, which follows the Bombay Primary Education (District Municipalities) Bill, 1917, is to make primary education in the Municipalities within the Presidency including the Corporation of Calcutta compulsory. As Municipalities in the Presidency are generally the centre of light and leading, compulsory primary education should be introduced in them first. It will be optional, however, with the Municipalities or particular Municipalities to enforce the provisions of the Bill within their areas. Provision is also made that the Act may be applicable to Union Committees as they are destined ere long to play an important part in the Municipal life of the country as indicated in Government's reply to the Resolution of the Hon'ble Babu Ambika Charan Mazumdar for extension of Municipalities in head-quarter stations of subdivisions and important centres of trade, etc., on the 5th March, 1917.

It is admitted on all hands that unless the masses of the people are educated and intellectually elevated, the country cannot advance in any department of public life. Some form of compulsion is necessary for a diffusion of primary education among the masses and provision has been made for such compulsion.

I have purposely made education compulsory among "boys" and not among "girls".

In case the financial condition of a Municipality does not permit of introducing this measure, power is given to the Municipality to levy an "education cess" with the sanction of the Local Government, with this proviso that where such a cess is levied, primary education shall be free.

Provision is also made for exemption of certain classes or communities from taking the benefit of this Act.

RESOLUTION ON THE REPORT OF THE DEPARTMENT OF AGRICULTURE, BENGAL, FOR THE YEAR ENDING THE 30TH JUNE 1917.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Agriculture Branch.

CALCUTTA, THE 20TH DECEMBER 1917.

RESOLUTION—No. 8872Agri.

READ—

The Report of the Department of Agriculture, Bengal, for the year ending the 30th June 1917.

MR. S. MILLIGAN of the Imperial Agricultural Service was in charge of the Department throughout the year, and Mr. F. Smith, Deputy Director of Agriculture, Western Circle, was in charge of operations in the Presidency and Burdwan Divisions. In Eastern Bengal the Department has been

short-handed : Mr. Hector, Economic Botanist, was absent, on leave, throughout the year : Mr. McLean, Deputy Director of Agriculture, joined the Indian Army Reserve of Officers on the 5th October 1916, and Mr. Annett, Agricultural Chemist, was deputed to the United Provinces on special duty connected with the war on the 28th September 1916. The Director of Agriculture took charge of Mr. McLean's work, and Mr. Finlow, Fibre Export, supervised the departments of the Economic Botanist and Agricultural Chemist. In consequence of this depletion of the expert staff no original work could be undertaken, and Mr. Annett's important work on date-palm sugar was unavoidably suspended. Nevertheless, the report is able to indicate the many-sided activities of the Department. There has been satisfactory progress in utilizing the results of previous investigation and in the continuance of experimental work on the lines of the past. As in the previous year there was a Superintendent of Agriculture in each of the five divisions, and there were ten District Agricultural Officers, the additional officers mentioned by the Director having been appointed after the close of the year.

2. One of the most interesting features of the year's work was the distribution in the Dacca and Mymensingh districts of small quantities of *Kakeya* Bombay jute seed and *Indrasail* paddy seed through panchayats to cultivators. This represents the culmination of a careful survey over many years during which the qualities of over 2,000 varieties of paddy and 500 varieties of jute have been tested with reference to their yield and hardihood. The heavy yields of the above named two varieties and the growing demand for seed were mentioned in the report of 1915-16 : this demand has been fully maintained and arrangements are being made for distribution on a larger scale in the coming year in the districts of Eastern and Northern Bengal. Other important work affecting the Eastern districts is the discovery of the manurial value of "water hyacinth", a weed which has become a source of serious obstruction to navigation, and has been found to contain a large proportion of potash. Mr. Finlow's investigations have already resulted in the sale of about 750 tons of hyacinth ash representing the destruction of about 75,000 tons of the green plant. There is a growing demand in Eastern Bengal for sugarcane setts from the agricultural farms and for Darjeeling seed potatoes, and the problems of distribution are receiving attention.

3. In Western Bengal the Department is not yet in a position to recommend agricultural improvements on the same scale as in those portions of the Province to which the experimental work of the Dacca Farm is immediately applicable. There has been a marked increase in the area under groundnuts in the Birbhum district ; but Mr. Milligan advocates caution in the extension of this crop owing to its liability to virulent disease, the methods of overcoming which have not yet been tested. The "Kataktara" variety of autumn rice has been proved to be a high yielder at the Dacca Farm, and sufficient seed is now available for preliminary trials in Western Bengal where it is expected to be suitable. The use of bonemeal manure is reported to be making some headway in the western districts.

4. Further knowledge has been obtained on the subject of *ufra*, the disease which causes serious ravages in the deep-water winter rice crop of several districts in the Dacca and Chittagong Divisions. It has been known for some time that this disease is due to a parasite called *Tylenchus Angustus* which is able to remain alive in the rice stubble during the interval between harvest and sowing : it has also been known that autumn rice, transplanted winter rice and *boro* rice, which is usually transplanted in December and January, are comparatively free from the disease. It has now been established that all kinds of rice are equally capable of developing the disease under favourable conditions, but that deep-water winter rice is particularly susceptible for two reasons : there is often a very short interval between the drying of the stubble of the old crop and the sowing of the new crop and the parasite is thus able to survive this interval, and the crop begins to mature at a season when the atmosphere is at its dampest, when the plants are particularly susceptible to the attacks of the parasite. The advice which has previously been given to burn the rice stubble

completely as soon as possible after the harvest still holds good, and as Mr. Milligan has observed, complete destruction of the stubble after harvest would probably prove a cure for the disease; but the fact that on the lowest ground the stubble does not become dry enough for burning until very shortly before sowing time renders it very difficult to give full effect to this advice, and as the rising water carries infection from one field to another, a field on which the stubble has been carefully burnt may suffer in the following year. The alternative to complete destruction of the stubble is the substitution of a different crop the stubble of which will not remain on the ground until sowing time. The reply to such advice would generally be that no crop but deep-water winter rice can be grown on the land because the water rises so high: in 1913 Dr. Butler expressed his doubts as to the validity of this argument, and he remarked that in certain areas in the Noakhali district transplanted winter rice had been substituted for the broadcast variety as a result of the extension of jute cultivation, inasmuch as jute can be followed by a crop of transplanted rice, but not by a crop of broadcasted rice. Dr. Butler also remarked on the fact that transplanting is much more troublesome than sowing broadcast, and he mentioned this as an explanation of the contention that it was impossible. His views receive confirmation from the facts reported by the Collector of Dacca regarding one of the worst *ufra*-infected tracts in his district in which transplanted *boro* rice has recently been substituted on a considerable scale for winter rice sown broadcast. Similarly, in the flood affected portions of Noakhali district cultivators were induced to grow *boro* rice in 1916. In this connection much interest attaches to the report of the Divisional Superintendent of Dacca that transplanted rice has been introduced as a novelty with good results in Faridpur district. During the year under review Mr. Shaw, the Imperial Mycologist, has continued the investigation of this important subject of *ufra*, and the Mycological Collector at Dacca has been principally employed in connection with it: an Assistant Mycological Collector was employed for six months in surveying *ufra*-infected tracts in Faridpur and in a portion of Bakarganj district and large areas were found to be infected. The Collectors of Dacca and Tippera in consultation with the officers of the Department conducted experiments in early ploughing and stubble burning in their districts: the results were inconclusive owing to the liability to infection by flowing water of the area dealt with in Dacca, while the freedom from *ufra* of the area dealt with in Tippera may have been due to other causes as the disease was much less prevalent than usual in the neighbourhood. These experiments, however, have not been without their value in concentrating attention on the disease, and the Governor in Council desires to acknowledge the assistance which Mr. Hart, the Collector of Dacca, has given to the Agricultural Department in this connection. This subject has been reviewed at length because the Governor in Council desires once more to impress on his officers the importance of combating the disease: he trusts that all District and Subdivisional Officers in the areas affected, who have not already done so, will make themselves acquainted with the literature on the subject, and will endeavour, in consultation with the officers of the Agricultural Department, to encourage remedial measures. He considers that the importance of dealing effectively with a virulent disease to which the most important crop of the Presidency is liable is greater than that of introducing new crops and improved agricultural methods.

5. At the close of the year the stock at the Rangpur Cattle Farm included 73 cows, 2 bulls, 65 bullocks and 49 calves and young stock. The worst of the cows are gradually being weeded out and replaced by animals conforming to a definite type, but only 19 of the cows came up to the qualifying yield for admission to the herd of 1,000 lbs. of milk per annum. No advance was made during the year in carrying out the new policy of developing two distinct herds, indigenous and cross-bred, in order to facilitate a decision whether the cattle of the Presidency can best be improved by direct importation from elsewhere or by breeding in the Presidency with selected local bulls or with imported bulls.

6. The Sericultural branch of the Department continued to work on the same lines as in previous years. Babu A. C. Ghose, Superintendent of Sericulture, was in charge of the operations for the production of disease-free seed cocoons at central nurseries for sale to rearers, the supervision of the production of seed cocoons by selected professional rearers, the disinfection and structural improvement of village rearing houses, and the improvement of mulberry plantations. There was a marked advance in the price obtained for silk during the year, and the departmental receipts from the sale of seed cocoons increased from Rs. 16,828 to Rs. 28,737. The expenditure on the nurseries amounted to Rs. 91,361 which does not include interest on the outlay on buildings. Mr. Hutchinson, the Imperial Agricultural Bacteriologist, has published an important bulletin on pebrine disease from which it appears that the existing methods for detecting pebrine in the silkworm moth are of doubtful efficacy : arrangements have been made to try the new and more accurate method described by him. On the experimental side Mr. P. C. Chaudhuri continued at the Berhampore nursery the work initiated by M. Grangeon : one of his hybrid races was tried by a member of the Silk Committee : the outturn of silk was satisfactory, but the multivoltine character of the race does not appear to be absolutely fixed. Miss Cleghorn continued to rear on a larger scale the hybrid Italian-Japanese and *Nistari* race started in 1911 : there is no doubt as to the vitality of this race under the hygienic conditions in which Miss Cleghorn rears it, and it now remains to test it at one of the nurseries under conditions more nearly approximating to those which village rearers can provide.

7. Mr. Pillai, the Weaving Master, visited all the principal weaving centres in Bengal and was in close touch with the Co-operative Department without whose assistance the prospects of Bengal weavers would be gloomy.

8. The Governor in Council has much pleasure in acknowledging the valuable services of Mr. Milligan as Director of Agriculture : he has shown marked administrative ability in the organization of schemes of seed distribution, and his expert knowledge of agriculture has been of great help in dealing with the numerous problems which confront the Department. He desires also to record his appreciation of the good work done by Mr. Finlow, whose duties have been very onerous owing to the absence of so many members of the staff : his patient work on jute at the Dacca Farm has been rewarded by the appreciation of the growing number of people who have profited by the use of *Kakya Bombai* jute seed. Babu Rajeswar Das Gupta, whose services are highly spoken of by the Director, has been promoted since the close of the year to officiate for Mr. McLean as Deputy Director of Agriculture. The jute firms in Eastern Bengal have continued to co-operate with Mr. Finlow in the testing of jute seed, and the supervision which they have given to the cultivation of comparative plots has made it possible to rely on the accuracy of the results obtained : their assistance has not only advertised a particular kind of jute seed but has helped to make the Agricultural Department better known among cultivators. No less valuable have been the services rendered by Presidents of Panchayats in the Dacca district and by non-official workers in Rangpur and in the districts of Western Bengal. On all sides there are signs of an increased interest in the work of the Department, and there are demands for assistance which the existing staff has much difficulty in meeting.

By order of the Governor in Council,

L. BIRLEY.

Secretary to the Govt. of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 24th December 1917.

Summary.—The week was rainless. Reaping of winter paddy continues briskly with good outturn. *Rabi* sowings are still going on in places. Transplanting of summer rice has just commenced. The present conditions are favourable for the standing spring crops. The average price of common rice for the province is gradually falling.
